**LISTING OF CLAIMS:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (CANCELED)

2. (PREVIOUSLY PRESENTED) A flange for an oil filter adaptor, the flange comprising:

a peripheral sealing portion adapted to be contacted by and seal with a correspondingly sized and shaped mounting flange of the oil filter adaptor, the peripheral sealing portion defining at least one inlet opening and at least one outlet opening, there being at least one divider between the at least one inlet opening and the at least one outlet opening, the at least one divider extending between a first section of the peripheral sealing portion and a second section of the peripheral sealing portion, the first section being remote from the second section, wherein the peripheral sealing portion is substantially rectangular in shape, the first section being a first corner of the rectangle, the second section being a second corner of the rectangle, the first corner being diagonally opposite the second corner.

3. (ORIGINAL) The flange of claim 2, wherein the at least one inlet opening is substantially triangular.
